20 Feb 2007 -
J. Malley (Ainsea Irish Wolfhounds)

Critique of Cyggy at IWADV 2008 Specialty, "A really lovely hound, has many of the qualities anyone could ask for... Super overall type, beautiful head and expression, very gentle, long.. neck into correct set of shoulders, flowing balanced correct outline, over and underline, forechest and depth, well ribbed back, good rear quarters and movementsound as a bell with ease scope looks the part..."

Moondancer of Elkhorn
Aka Eradinus
20 Feb 2007 -
Eradinus never like the show ring as a puppy. Some may remember his rodeo style behavior at DelVal in 2007. This behavior made us decide to wait until he matured and try him again. Well, they say time changes things and it is true. Instead of being a 7 month old bucking puppy, he is a 170 pound show-off. His sweet temperament is confirmed by his 4 chihuahuas and 1 schnauzer housemates.

See you at the bridge, Bud.
Although I grew up in an urban family, by age three I had gone “to the dogs”, to horses, to several cats and a few rabbits. I continue to thank my family for their patience. My first foray into competition was in the early ’60s with a Great Pyrenees in conformation and a Doberman in obedience.

I came into Irish Wolfhounds shortly after Dennis and I were married. These hounds have been a significant part of our lives since 1973. We were fortunate to have come under the wing of Sam Ewing, Eagle Farms. While our primary focus was the show ring, we’ve had the pleasure of knowing and loving 12 generations of Wolfhounds.

When our son, David, requested a dog of his own, we became involved with PBGVs. I became active in the PBGV Parent Club and have held several positions over the years. Currently, I am the AKC Delegate for the PBGV Club of America, and am approved to judge the Hound Group.

The Standard of Excellence for the Irish Wolfhound

General Appearance -- Of great size and commanding appearance, the Irish Wolfhound is remarkable in combining power and swiftness with keen sight. The largest and tallest of the galloping hounds, in general type he is a rough-coated, Greyhound-like breed; very muscular, strong though gracefully built; movements easy and active; head and neck carried high, the tail carried with an upward sweep with a slight curve towards the extremity. The minimum height and weight of dogs should be 32 inches and 120 pounds; of bitches, 30 inches and 105 pounds, these to apply only to hounds over 18 months. Anything below this should be debarred from competition. Great size, including height at shoulder and proportionate length of body, is the desideratum to be aimed at, and it is desired to firmly establish a race that shall average from 32 to 34 inches in dogs, showing the requisite power, activity, courage and symmetry.

Head -- Long, the frontal bones of the forehead very slightly raised and very little indentation between the eyes. Skull, not too broad. Muzzle, long and moderately pointed. Ears, small and Greyhound-like in carriage. Neck -- Rather long, very strong and muscular, well arched, without dewlap or loose skin about the throat.

Belly -- Well drawn up.

Forequarters -- Shoulder, muscular, giving breadth of chest, set sloping. Elbows well under, neither turned inwards nor outwards. Leg -- forearm muscular, and the whole leg strong and quite straight.

Hindquarters -- Muscular thighs and second thigh long and strong as in the Greyhound, and hocks well let down and turning neither in nor out.

Feet -- Moderately large and round, neither turned inwards nor outwards. Toes, well arched and closed. Nails, very strong and curved.

Hair -- Rough and hard on body, legs and head; especially wiry and long over eyes and under jaw.

Color and Markings -- The recognized colors are gray, brindle, red, black, pure white, fawn, or any color that appears in the Deerhound.

Faults -- Too light or heavy a head, too highly arched frontal bone; large ears and hanging flat to the face; short neck; full dewlap; too narrow or too broad a chest; sunken or hollow or quite straight back; bent forelegs; overbent fetlocks; twisted feet; spreading toes; too curly a tail; weak hindquarters and a general want of muscle; too short in body; lips or nose liver-colored or lacking pigmentation.
To our dear friend Art King...
